Change: “Knotless, bohemian, twists and locs — installed one client at a time in a salon suite in Garland. Every price and every sitting time is on the menu before you book.” To “Clean knotless braids, boho styles, natural hair styles, and loc retwists in a private Garland salon suite. Every price and every sitting time is on the menu before you book.”

Remove: not a shared floor

Prices and times have recently changed on the booking site, and clients no longer must provide hair so please remove “you bring the hair”. The style people come back for are “small bohemian knotless, Medium knotless, small island twist, and 4+ cornrow”. I would like for it to adjust to reflect that.

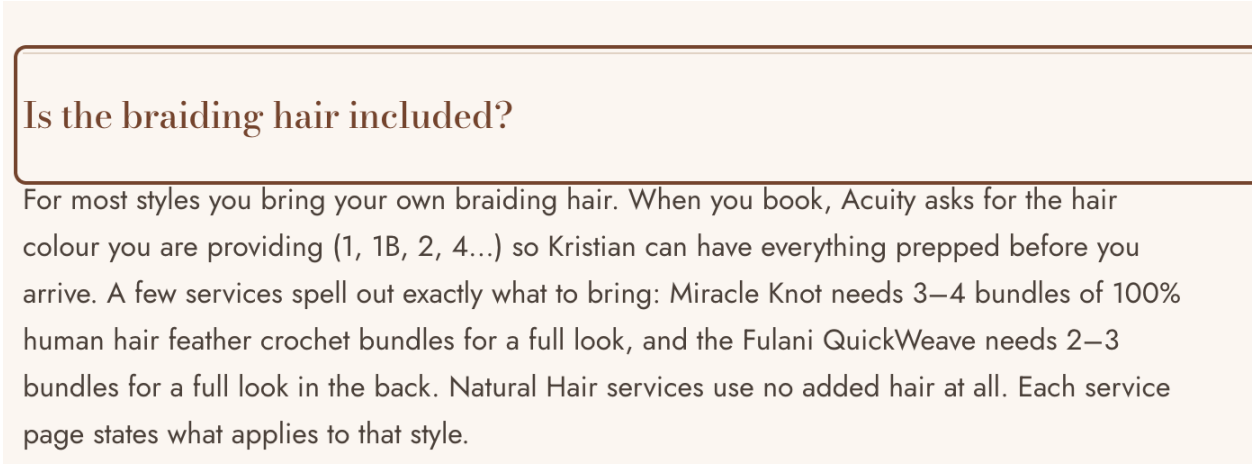

For this section I would like for it to reflect on how fast of a braider I am and how clean my parts are. The appointments are not long.

Please remove the gallery.

This is wrong, please refer to my booking site again for updated policies and that I now provide hair.

Is the braiding hair included?

For most styles you bring your own braiding hair. When you book, Acuity asks for the hair colour you are providing (1, 1B, 2, 4…) so Kristian can have everything prepped before you arrive. A few services spell out exactly what to bring: Miracle Knot needs 3–4 bundles of 100% human hair feather crochet bundles for a full look, and the Fulani QuickWeave needs 2–3 bundles for a full look in the back. Natural Hair services use no added hair at all. Each service page states what applies to that style.
